For students who are applying to the U.S. universities, the application essay is probably the most important part of the entire application. It has the potential to make or break an applicant's admission.

Our application essay teachers have many years of application essay editing experience. Many of our students who got accepted into top 20 U.S. universities such as Harvard, Princeton, Stanford, MIT, Yale, as well as top 5 U.K. universities such as Cambridge and Oxford, have had their essays edited by our teachers.

Below is the detailed course schedule:
