

New AP Courses

AP (Advanced Placement) courses are college-level courses introduced by the College Board in the United States. These courses are designed to prepare high school students for college. These courses cover various subjects, including Arts, English, History and Social Sciences, Mathematics and Computer Science, Natural Sciences, World Languages and Literature, as well as the Capstone Diploma Program. There is a total of 38 AP courses across 7 categories, forming a comprehensive exam system. AP exams are held annually in May. Students' AP exam scores have a positive impact on admissions to prestigious universities in the U.S., Canada, and worldwide.

Meritus Academy has over a decade of AP course training experience and currently offers courses in AP Calculus, AP Statistics, AP Physics, AP Chemistry, AP Biology, AP English, and AP French and other popular AP courses.

Our AP courses start in July, October/November, and January. We tailor learning plans based on the specific needs of each student to implement a “teaching according to student aptitude” approach. We have successfully helped thousands of students achieve high scores, even perfect scores.

Starting on October 1, our school will offer a series of AP courses, including AP Calculus, AP Physics, AP Chemistry, AP Biology, AP U.S. History, AP English, AP Computer Science, and AP French.
